CLIENT INFORMATION & CONSENT

THERAPY
You will be placed with a qualified, licensed professional counselor or social worker that we feel will be a good match for your needs. If for any reason you would like to change therapists, we will do our best to place with you another therapist we feel would be a good match for your needs.

MENTAL HEALTH SERVICES: BENEFITS & RISKS
While it may not be easy to seek help from a mental health professional, at Walter's Walk we hope that this experience will assist you in understanding your situation or problem and moving toward a resolution of this issue. A therapist has professional training and knowledge of human development and behavior and will make observations about your situation and will assist you in finding options for resolution of your issue(s). The therapist may utilize various therapeutic approaches in order to assist you in resolving your problem(s). You should be aware that entering into psychotherapy is a risk. Psychotherapy sessions can be painful at times. Oftentimes, you may learn new information about yourself that you may not like. Often personal growth cannot occur until you are able to confront your issues and experience the associated feelings. These feelings may include pain, sadness, anger or shame. The success of our work depends on the quality effort of both therapist and client and the realization that you are ultimately in control of and responsible for the changes that result from psychotherapy. Specifically, one risk of psychotherapy is encountering (positive or negative) reactions from significant others to your new lifestyle choices/changes.

GOALS, PURPOSES, AND TECHNIQUES OF THERAPY
Psychotherapy may be one way to effectively treat your problem. There may be alternative ways to treat your problem. It is important for you to discuss any concerns you have regarding the therapist's treatment recommendations. The therapist encourages you to provide input into setting your goals for therapy and the therapeutic techniques used for treatment. As therapy progresses, these goals and techniques may change.

RELATIONSHIP
Your relationship with your therapist is a professional relationship. In order to preserve this relationship, the therapist cannot have any other type of relationship with you. Any personal or business relationships with you will undermine the effectiveness of the therapeutic relationship and therefore is strictly prohibited. Your therapist is committed to your mental health but is not in the position to become socially or personally involved with you. Please note that the therapist cannot accept any gifts, or barter/trade services.

SESSIONS
Therapy sessions vary in length from 45 to 90 minutes. The number of sessions and length needed depends on various factors and can be discussed during your session. Some insurance companies may provide a limited number of sessions under your designated plan. If your insurance company requires authorization for mental health services, it is your responsibility to obtain this authorization prior to our initial appointment. Requests for additional sessions from your insurance company will be requested by the therapist.

APPOINTMENTS & CANCELLATIONS
To schedule an appointment, please call your therapist, see attached therapist information sheet or website for contact information. If you think that you will be unable to attend a scheduled appointment, please notify your therapist with 24-hour advance notice. **You will be charged $25.00 for missed appointments or for less than 24-hour notice of cancellation.** Exceptions to this fee include documented medical illness or emergencies. If you miss an appointment, it is your responsibility to contact the therapist to reschedule. If you do not show up for an appointment, and do not call to cancel your appointment within 48 hours of the missed appointment, all future scheduled appointments may be canceled.

CONFIDENTIALITY: All sessions with your therapist are confidential. No information will be released without your written consent. However, there are some exceptions including, but not limited to the following:

1. All insurance companies require that a provider furnish a diagnosis and sometimes a treatment plan on each client in order to justify the necessity of treatment and payment. Your insurance company paying for services may have a right to review all of your treatment records.
2. Missouri State Law demands that all providers report any suspected physical or sexual abuse to the appropriate Child or Elderly Hotline Services, which is then reported to the appropriate agency for investigation.
3. Missouri State Law and Professional Ethics require all providers to report if a client is homicidal or suicidal. This is reported in order to help the client rather than harm the client. Therapist also has a duty to warn any person who is a potential target for harm by a client. Therapist will notify targeted person and law enforcement of any such threats.
4. If a Federal or State Court requests the release of records, the provider has to comply, with certain exceptions.
5. Most insurance companies require that a provider keep a patient's "Primary Care Physician" informed of his/her mental health treatment. By signing the consent, you agree to allow me to keep your physician informed at my discretion.
6. A fee dispute between the therapist and client.

7. A negligence suit brought by the client against the therapist or a complaint filed with a licensing board, or other state or federal regulatory authority.

For further information, please review the Notice of Privacy Practices handout provided to you by the therapist. If you have additional questions, please address them with the therapist. By signing this information and consent form, you are giving consent to the understated therapist to share confidential information with all persons mandated by law and with the managed care company and/or insurance carrier responsible for providing your mental health services and payment for those services. You are also releasing and holding harmless the undersigned therapist from any departure from your right of confidentiality that may result.

(Effective April 15, 2003; amended August 1, 2013)

This notice is developed in compliance with the Health Insurance Portability and Accountability Act of 1996 (45CRF)

If you are a client of Walter's Walk this notice describes how your health information may be used and disclosed and how you can get access to this information. Please review this notice carefully.

I. Understanding Your Health Record/Information
As a client of Walter's Walk, a record is kept of your visit. This record contains your reason for seeking services, symptoms, diagnosis, and a plan of treatment for future services. Although this record is the property of Walter's Walk the information within the record belongs to you. This information is considered your "Protected Health Information" (PHI) and is afforded certain protections under the law.

II. HITECH Amendments: Walter's Walk has included HITECH Act provision to its Notice as follows:
HITECH Notification Requirements. Under HITECH, Walter's Walk is required to notify clients whose PHI has been breached. Notification must occur by first-class mail within sixty (60) days of the event. A breach means the acquisition, access, use or disclosure of PHI in a manner not permitted under the Privacy Rule which compromises the security or privacy of such information. This Notice must: (1) contain a brief description of what happened, including the date of the breach and the date of discovery; (2) the steps the individual should take to protect themselves from potential harm resulting from the breach; and (3) a brief description of what Walter's Walk is doing to investigate the breach, mitigate losses, and to protect against further breaches.

Cash Clients
HITECH provides that if a client pays in full for their services out of pocket, they can demand that the information regarding the service not be disclosed to the client's health plan since no claim is being made to the health plan.

Access to E-Health Records

Walter's Walk may only charge for labor costs under these new rules. Walter's Walk currently participates in E-Health Records.
